City Goats: An Urban Veterinary Technician's Crash Course

2 RACE APPROVED CE CREDITS

In today's world with more and more urban farming, city goats are becoming a very common thing to see in our society and within practice. This CE will cover the unique basics of goat anatomy/physiology and will expose the CE taker to the basic requirements and husbandry, preventative medicine in an urban practice. This course will help urban technicians who typically do not see goats in practice be informed and able to educate clients on their goats in an urban setting.

OCTOBER 12TH 6 - 8 PM

THIS CE IS \$30. YOU CAN REGISTER AT:
