Alternate Paths to Success as a Veterinary Technician with Danielle Heberle and Jenny Flynn

As technicians, we are no longer limited to traditional journeys to success in the veterinary practice setting.

From clinical experience, we can develop a passion which could lead us out of the clinical setting and into the corporate or specialty arena.

We will discuss our journey from what lead us to and from tech school, working in clinical environments and out into the corporate world.

November 15th, 6 - 8 pm MST

This CE is \$30. you can register at:
